PRESS RELEASE

TEXFUSION PRESENTS APPFUSION – A new hall dedicated to garments manufacturers

After the October 2016 success, Texfusion continues growing with 150 exhibitors and a new hall dedicated to international garments manufacturers.

Again, at the Business Design Centre, Texfusion finds its natural environment. The BDC, centrally located within Highbury and Islington quarter, recreates the perfect atmosphere for such a vibrant fashion event.

Texfusion is the first UK fair of its kind and responds to an increasing demand of international textiles by European fashion brands, retailers and manufacturers. The show will present a wide and carefully selected range of fabrics, trims, accessories and prints from the best world manufacturers.

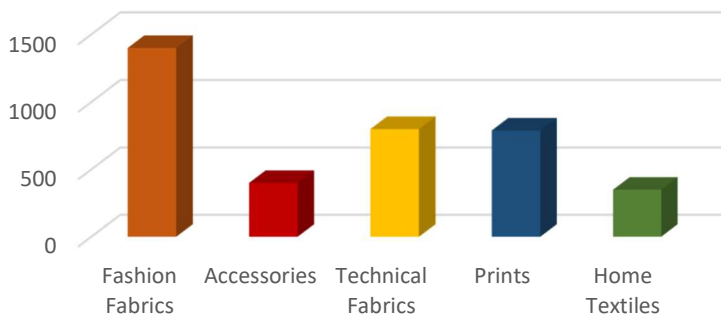

A new hall dedicated to garments will be launched in March, which will complete the wide Texfusion product spectrum. Two halls (**Technical Fabrics and Home Textiles**) were presented for the first time in October 2016, which had an exceptional success with a growing appeal within the exhibition.

The show is expected to attract more than 2000 buyers. Beside the regular customers from the UK, the show has buyers coming from Germany, France, Italy, Northern Europe, Russia and Middle East.

THE LONDON WORLD TEXTILE FAIR TEXFUSION

Visitors - October 2016

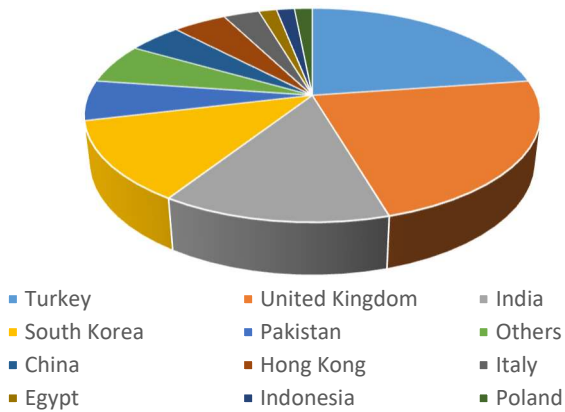

The October 2016 show was held in conjunction with [The London Print Design Fair](#) – which focuses on new trends, print designs and vintage garments.

The two shows worked very well together, due to the cross over between them, and they will be held at the same time again in March.

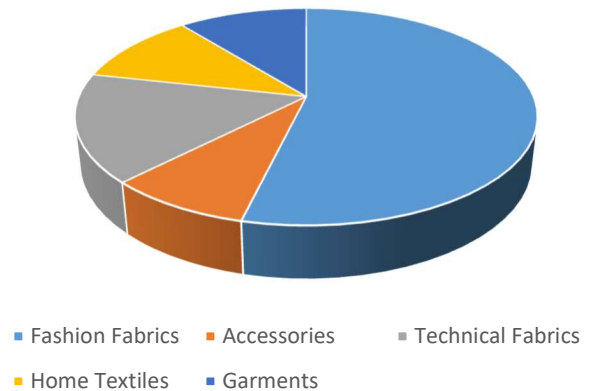

Technical fabrics have also grown very quickly within the show and these products will occupy a wider section in March.

Texfusion offers the buyers the unique opportunity to meet 150 exhibitors from 15 Countries and collections will focus on fashion fabrics, accessories, technical fabrics, home textiles and garments.
